

North Metro Junior Football League Rules

The North Metro Junior Football League will follow MSHSL rules with the following exceptions, notes, or clarifications listed below.

- No weight limit
- 12 minute running quarters (stops for timeouts, injuries, after a touchdown, after a change of possession, penalties (to allow referees to make the call), and inside the last 2 minutes of each half)
- It is recommended to have a full 100 yard field and play on the varsity football field, but it is allowed to play on a smaller field if need be. Fields do not need to have goalposts or scoreboards.
- Running clock if a team goes up by 35 (only stop for a timeout or injury, it'll keep running after a TD), even if the losing team scores a touchdown and the lead goes back under 35
- Kickoffs from the 40 yard line
- No rushing on punts or field goal attempts. The team must declare their intent before they play. (No fakes)
- Extra points are like high school (kicking is worth 1 and everything else is worth 2) but no rush on an extra point kick
- The football size must be youth size (size 8) or bigger
- Overtime - Both teams will get a chance at the 10 yard line to score. Both teams will get a chance until the tie is broken. No restrictions on going for 2 or extra points
- Tie breakers for standings
 - 2 way tie would be determined by head to head match up
 - In case of a tie head to head, we would do a coin flip
 - 3 way tie would be determined as follows
 - Head to head (if a team beat both teams, they would win the tiebreaker and we would proceed with the two teams left as a two way tie
 - If the 3 teams go 1-1 against each other, we would use point differential between the games the three teams played against each other with a +21 point max
 - If point differential is a tie, we would go to points allowed only in the games played by those three teams
 - If everything is still tied, we would do a coin flip
